Boston Women's Fund supports organizing efforts by low-income women, women of color, lesbians, women with disabilities, older women, transgendered women, immigrants, and girls, working to create a society based on racial, social and economic justice.

Since 1984, Boston Women's Fund has provided \$4.1 million in grants to more than 200 programs organized by women and girls in Greater Boston.

The Fund raises money from a broad base of donors across economic backgrounds, to provide grants and develop programs that strengthen the grassroots initiatives and leadership of women and girls.
